Proposed Oasis Projects

Fall 2013

**Burnham Hall (BH) - 3rd floor corridor**
Transform the third floor corridor into a series of informal learning spaces with comfortable seating, carpeting, lighting and artwork.

**Education, Performing Arts & Social Work (EPASW) - 2nd floor**
Convert an underutilized storage space into an informal learning space with comfortable seating, carpeting, lighting and artwork.

**Science & Engineering South (SES) - West Bldg: 1st floor**
Convert an unutilized space to an informal learning space with comfortable seating, lighting and artwork.

**Science & Engineering South (SES) - West Bldg: 1st floor corridor**
Convert an unutilized corridor space into an informal learning space with comfortable seating, lighting and artwork.

**Science & Engineering South (SES) - West Bldg: 2nd floor corridor**
Convert an unutilized corridor space into an informal learning space with comfortable seating, lighting and artwork.

**Outdoor Oasis**
Create an outdoor teaching and learning space which could be used for classes and even performance. Special features could include curved seating, built into the ground, and sustainable landscaping.

**Sustainability Oasis**
Create a new, LEED certified structure, which would be a mecca for students and faculty who bicycle to and from campus. Green features to include: electricity generation using photovoltaic cells, rain water collection, and use of recycled materials.
